Tim, Based on Val's response, it appears we can start calling the Zone 2 residents with their lead results. We just need to have Chris approve the draft script and give us the ok to share with OPA and IDEM for review/input.

Subject: RE: East Chicago data?

Hi Rita,

I did not see any new East Chicago data on Wednesday.

Here is a summary of data received, which also is on Sharepoint:

- Zone 2 (CT Labs)
 - o Pre-excavation:
 - 8 sites reported (of which 7 datasets are final)
 - Max lead is 44.9 ppb
 - o Post-excavation:
 - 3 sites reported (of which 1 dataset is final)
 - Max lead is 334 ppb

- Based on the Level 4 DV reports, no major issues were apparent for CT Labs data.
- Zone 3 (Pace or STAT)
- Pre-excavation:
 - 14 sites reported
 - Max lead is 81 ppb
- Post-excavation:
 - 9 sites reported
 - Max lead is 35 ppb
- I have not seen any Level 4 DVRs (“Final data”) for Pace or STAT data.

Let me know if you have any questions or would like to discuss.

Thanks!

Val

Subject: East Chicago data?

Did we get the final data last Wednesday as promised?
